

FAT TUESDAY

13 wild and crazy Miata members braved the Fat Tuesday crowds to Party at Crawdaddies. Everyone was pretty jolly (probably because of or in spite of the Hurricanes). It was standing room only until we were showed to our table. It was nice to catch up with everyone and we talked about the warm weather in sight and the upcoming driving events. We all sported our Beads, some had more than others, (not telling how I got mine) just saying. The menu offered quite a few selections, some more adventurous like Crawtails, Etouffee, and the Twins. Everyone ate and drank and celebrated being with friends that have a little car in common. It was a very enjoyable evening.
