

Jim and Karen were our leaders for the Friday ride. We left the Sommerset Motel at 9:30 on a beautiful autumn morning. It was a little crisp at first, but it did eventually warm up. We were a little early for the fall colors, but the roads Jim choose more than made up for that. Our 1st stop was Lakeside Park which provided us with a fantastic waterfront view, and of course a potty stop. We all zoomed along the country lanes enjoying the scenery. Our next stop was Cave Point. We were running a little late so couldn't spend much time exploring. When leaving the park some of us went the opposite way of the lead car, so it took some time, but we all managed to catch up to one another and continue on. Jim introduced us to a great Rustic road #9 (I think). We all enjoyed that one and were almost hoping we could go back and re run it.

Our lunch stop was at the Stone Harbor Resort in Sturgeon Bay. It was a beautiful outside patio area that allowed us to enjoy the boats that were moored there. However, we had a lot of uninvited guests (wasps). They managed to run several people indoors so they could enjoy their lunch without getting stung.

Paula B was unfortunately one of their victims, (they got her 3 times).

The morning ride was enjoyed by all. This writer however had money burning in her purse and needed to get her fix with shopping so we decided to head out on our own and did not finish out the afternoon ride. Many thanks to Jim and Karen for leading us on a great ride.
