

Driving for Apples 2.0. Sept, 18, 2021

Hosts: Don Gervais and Kristine Lauden

Badgerland Miata Club and RX Club of Wisconsin

On a gorgeous blue skyed day, we (22 cars) gathered together at the Citgo MacDonald's in Kewaskum, WI around 11:30. We also saw many bikers at this point. After a short driver meeting, we started our cruise through twisty road of the Northern Kettle Moraine Forest. An "Al Capone" car was sighted on the beginning of our travels along with some totem poles. We drove under canopied fantastic Miata roads and tight corners as we wound our way to Dundee for our traditional ice stop. The cones were triple scope of some really good ice cream. Right before we got to Dundee, there was a beautiful lake, called Long Lake which was very appropriately named as it was long for a lake. Then, we journeyed on more fabulous roads to the Little Farmer where there were a variety of apples to choose from. Unfortunately, there was no apple bakery left. We perused the craft and product tents to see what else they had. I did observe many bags of apples departing with the Miata members. I wonder what delightful treats will be made with all those apples??

Around 4:15 we then traveled about a mile down the way to the Lake Winnebago Beach Club where Kristine had prepared the burgers, brats, chips, water, etc. for a relaxing picnic right by the lake.

A great way to enjoy the outdoors on a great day. Thanks Don and Kristine!
