

B.A.C.K Ride Trip Report

It was a day of contrasts! Tops up, tops down, tops up and then down again. Cloudy, sun, rain, sun, rain and so on. But we 23 carloads of eager Miata friends had a good time zig zagging through Sheboygan, curving onto Lakeshore Dr. and oohing at the beautiful Lake Michigan sites: sail boat regatta, Manitowoc's Badger Ferry Boat, and more. Then two fields where gangs of seagulls owned one side and hordes of geese ruled the other. Contrasts. Up the road we stopped for Dairy Queen and across the

street, West of the Lake Gardens to enjoy ice cream and air-conditioned loos complements of both establishments. The Garden's flowers, still fresh and vibrant provided a colorful contrast to the grey blue lake feet away. Fortified with ice water, we raced along miles of sun bleached straight highways, rounded curves on Rustic roads happy, for shaded bowers, and discovered towns large and small. Contrasts. We got lost, we got found, we separated, we rejoined. We arrived at Woodland Creek Supper Club, happy and ready to eat, drink, and be merry. Many thanks to the McCann's for hosting a very good day.
