

Lookin' For Color Sept. 26, 2020

Wondering if we found colors on our drive? Well, you'll have to look at the pictures to find out for sure. All 9 cars occupants enjoyed the scenic touring route through the Devil's Lake area and Owen Park area and Durwood's Glen area. Then up to the Baraboo Bluffs and back to the South Shore of Devil's Lake. An ice cream stop at Dairy Queen in Baraboo was the perfect mid-way point of the ride. Got to love those Blizzards and Hot Fudge Sundaes.

The next part of the took us onto roads like Happy Hill and Sky View then back down to Leland and canopied roads . We even got to see a white deer in the field Marklein Road. Then on more curvy roads to Arthur's Supper Club in Spring Green where we relished in the special of the night's prime rib and shrimp and scallops.

116 miles of great Miata MX-5 roads and great Miata MX-5 friends. What could be better than that?
