

Rustics Revisited Hosts Jim L. and Karen H.

What a perfect day for our 23 Miatas to be out and about! Along with 2 new members who joined this summer, we started at the Cushing Elementary School parking lot in Delafield. From there we wiggled our way along canopied and curving roads that left us breathless with their scenic views as well as an old log house throughout Waukesha County. There even was a Jackass Saloon, but we didn't stop there. Continuing along canopied hilly roads, where we dodged chickens and branches left from last week's storm, that took us to our lunch destination at 841 Brewhouse that gave us great service and we were able to leave there early hoping we'd have time for an ice cream break.

The second leg of our journey took us along more road with canopies, S-curves, roller coaster roads of the Kettle Moraine area, with more beautiful sunshine without the humidity! Unfortunately, we had a few cars detour on their own scenic route, so we had to wait for them, and there went our ice cream stop :(. Oh well those things happen when we are touring the beautiful views!

We had a bio break where we stopped using 3 gas stations to get us all through in 20 minutes. Then continued on more gorgeous roads to our final destination at the Delafield Brew Haus where we could eat dinner or go the Jazz Festival.

Thanks to Jim and Colleen D. for being sweep, Henry N .for being middle car, and those who took pictures for website!
