

Red Lewis Car Show and Door County Ride

Friday afternoon started out with a meet and greet at Dan and Renee's beautiful home overlooking the bay. After mingling and getting to know each other, we went to a traditional Wisconsin fish fry at Highland Howie's. Saturday morning started early about 7:00 with cars being polished and dried off from the rain the night before and they were all lined up by 8:00. The morning went by quickly, talking to people asking questions about the Miata's. A few of us went to the farmers market, which was adjacent to the car show, and some people toured the adjacent car museum. We took a lunch break at the nearby Fox Harbor pub for a nice lunch. After the car show broke up around 2 o'clock, Dan Dallich. led a short drive along the Fox River to Coffee and Cream in Wrightstown for an ice cream break. It had a beautiful outdoor area overlooking the river.. Then we followed the east side of the Fox River back to Saint Brendan's in Green Bay, for a great dinner that evening.

On Sunday morning, we lined up at about 8:30 to get going on our Door County ride. We had a scenic drive up the back roads of west shore to Gills Rock Town Park where Dan and Renee brought out Uncle Mike's Kringle and coffee or tea. The CURVY ROAD, a well paved S-curves perfect for Miatas, came next. And we all enjoyed the experience. Then the ride went down the east side of Door County to Cave Point County Park and where we saw the caves that had been formed by the waves. The ride ended with a stop to get ice cream (!) before everyone headed home.

Many thanks to Dan & Renee, Craig, and Brian and Grace for a great Green Bay/Door County weekend!
