

Mud Run/ Ladies Day Event Recap

We had a great day at the Mud Run on Saturday thanks to Laura and Henry's hospitality and their usual well-planned drive through the scenic Driftless Region. While Laura engaged some of the ladies in helping with the decorations for the 35th Anniversary Celebration, Henry guided the rest of us to a private toy collection. The toy collection defies description, so I won't try. We were impressed. A highlight of the gathering was meeting new member Julie Mitchell. Julie lives in Madison and is semi-retired from an academic and research career. She has been to autocross school and wants to give the real thing a try. Julie has a 2018 Miata personalized with unique graphic on the hood. The Phoenix is a tribute to her Dad's Pontiac Firebird Trans-AM which was her favorite car when she was growing up. Very cool! We won't have any problem recognizing Julie's car at future events! Welcome Julie! Also taking part was Jeff Spruill who has rejoined BMC after a few years away. Welcome back Jeff!
