

I've always wanted a little two seat roadster since I drove a friend's Opel GT when I was in college, but family and kids made it impossible for many years. So the plan was when I retired we would purchase a two seat roadster. So after flying to Florida for a short vacation (at the insistence of Cheri) I rented a Pontiac Solstice (nice car but no trunk). That brought out the old desire. Cheri's car was 10 years old and was ready to be replaced but she couldn't decide what car she wanted so she suggested we purchase a roadster now instead of waiting. Well, you didn't have to ask me twice. We looked around and really liked the Miata so when the snow melted in 2008 we purchased our Grand Turing Miata. Sometime in the fall of 2008 Cheri met Marci Hotz at a jewelry store (I don't think men ever meet at jewelry stores) and found out about the Badgerland Miata Club. We joined in the spring of 2009 and enjoyed it ever since.

At the 2015 fall membership meeting they asked me if I would take over the Webmaster post from Craig. I told them I would but warned everyone that although I was used to using computers the last programming I had done involved using punch cards. Craig assured me it wouldn't be that bad and I was ready for a new challenge anyway so I began a year of learning HTML. Craig's a very good teacher and after a year I feel pretty confident I can keep the web page updated, although if I had to start from scratch I would probably be in real trouble. Anyway if you see something on the web page that is wrong or you would like to change feel free to contact me.
